

# Acupuncture Clinic For Sale

Successful acupuncture clinic for sale in San Diego. The clinic is fully furnished and staffed (optional), and is located near a free-way, close to several fast-growing San Diego neighborhoods.

The clinic includes 4 treatment rooms with one room being large enough for 2 tables or a small "community acupuncture" room. The owner is relocating and selling the practice.

Established in 2009, the practice saw 408 new patients in 2019 and 192 in 2020. We have a recurring loyal patient database of over 4500, an annual patient volume of 3480 visits in 2019 and 1944 visits in 2020. 2021 is showing a return to pre-Covid numbers. Expansion of services to include classes, specialty practices in addition to the one-on-one treatments will create more revenue-generating potential. Charts for all active patients have been converted to digital files and uploaded to the clinic's EMR. Owner is willing to provide training/support in the patient transition and staff integration. Perfect opportunity for expansion of locations of existing alternative medical clinics, or for a new graduate looking for a turnkey, fully operational and thriving practice while enjoying America's Finest City.
